

DIDSBURY PIONEER

Vol. XXII

THURSDAY, AUGUST 27th

No. 34

Former Editor Renews Acquaintance.

Spokane, Aug. 18th, 25

Editor Didsbury Pioneer:

Dear Sir—Kindly allow me a little space in your columns for a short letter to our many friends in Didsbury and district to whom it would be an impossibility to write individual letters, but who, we flatter ourselves by thinking, would like to hear something of our experiences and welfare.

After leaving Didsbury we spent a few days visiting at Moosejaw, Sask., and it would be useless now, describing conditions when the season is so much further advanced. Suffice it to say that at that time (about the middle of June) we never saw better looking prospects all through the parts of Alberta and Saskatchewan through which we travelled, and sincerely hope that you will have the most successful year in farming operation that you have ever had.

We arrived in Spokane about the end of June. Perhaps just here I should state that the assistance given us at the American Consul's office in Calgary was splendid and very much appreciated, although of course the regular routine had to be followed out, that is visas had to be secured for my two daughters, who are Canadian born, but I will have to come back to Calgary and come in with the British born quota next month.

The city of Spokane with its large number of beautiful parks, small neat homes with abundance of tree and flower life and green lawns, is a very pleasant place in which to live if you have a tin Lizzie to go around in, although it's street car system is very adequate, for those who have to depend on Shank's mare for the means of locomotion. Its system of large public markets are also a picture to the eye just at present, with their big stalls of all kinds of fruits, vegetables and flowers, which are sold at extremely reasonable prices. Watermelons, which are now in, sell at 2 1/2 to 3 1/2 cents per lb., cantelopes 8 for 25c, strawberries 15c box, peaches \$1.25 crate and so on. Vegetables are also very reasonable in price, potatoes wholesale at \$2.50 per 100 lbs. The line of dairy produce is not so high considering conditions: butter retails at 54c lb., eggs 40c. doz., milk, pasteurized 12c. quart. Meats are as high as in Alberta, and in the opinion of the writer not nearly so good. Pork products such as bacon do not reach nearly the standard of your Alberta products in this line.

So far our experiences with the real American people has been limited, but

Mountain View

The Mountain View W. I. met at Community Hall on Thursday, August 20th. There was a rather small attendance owing to the busy season.

Gore school starts September 1st, with Miss Vera Manhard as teacher. Neapolis school begins August 31st with Miss Lina Clark as teacher.

The dance at the hall on Friday night was well attended.

The M.V.W.I. will hold their next meeting at Mrs. Atkinsons on September 17th. Roll call will be answered by questions or items of interest on "Immigration."

The Jutland W.C.T.U. will hold their next meeting at the home of Mrs. Ed. Leisemer on September 2nd, all ladies are cordially invited. Members are all requested to be present.

Didsbury Opera House.

On Saturday, August 29th, the Didsbury Opera House has a treat in store for its patrons in "New lives for old," a picture that should not be missed. The comedy, "What a night," is also good. On Wednesday, September 3rd, a picture by Harold Bell Wright will be presented, entitled "Son of his father," another of this author's productions that is sure to please. An unusually funny comedy goes with this, "The tenderfoot," and it will make your sides crack. Don't miss it.

we are gradually assimilating their customs and usages and so far like those we have met very well. The biggest difference we find here is on Sundays. Although the state of Washington has now passed laws to prohibit Sunday dancing, all places of amusement, except for dancing, are open and a lot of the smaller district stores, but at that there is a strong Sunday sentiment which is evidenced by the large number who attend services on that day in the many fine churches.

Harvest of course is nearly over here. They have had a good season with their crops according to press reports although the individual city dweller here does not come in so close contact with agricultural conditions as do Albertans. The late fruit crop promises to be plentiful. Altogether the business men are feeling rather optimistic over the outlook for fall business, but up until this year it has been very slow, the same as in Alberta. While there does not seem to be as big an unemployed class as would be expected in a city of over 100,000 population, there does not seem to be a surplus of jobs except for the harvest and in the orchards with which Spokane is surrounded.

The weather has been ideal since we came down here. There has been only two heavy rainstorms which lasted a short time and last week the temperature dropped down pretty low for a day or two, but there has been some extreme heat. For a few days in July the thermometer registered 100 degrees which they say is unusual. They had a very wet spring this year, which is what they want as everything matures so much earlier down here, and that is the reason crops are so good. Most of the large number of fruit and vegetable farms close to Spokane are irrigated and the city seems to have an abundance of splendid water.

We hope all our old friends and well wishers are in the best of health and can assure all that my daughters, Kathleen and Edith as well as myself, often think and talk of the people of Didsbury and district amongst whom we lived so many years and wish them all the best of good luck in which Mr. and Mrs. L. C. Coffey also join.

Yours sincerely,
H. E. Osmond.

Bergen-Niche Valley

We are having a good all day rain for which we are thankful. It has been quite dry here, the Blain brothers have been breaking sod with a Titan tractor on the N. E. of Sec. 28, and that would have been impossible some years ago.

The Eldswold school will close for a few weeks vacation, Aug. 14th

The berries seem to draw some people out here, judging from the foot prints seen on the trail.

Mr. Ivor Erickson who had his leg injured some weeks ago, went to Calgary to have some pieces of bone removed. He has been in the hospital nearly two months.

Dave Allan has refused a good offer for one of his thoroughbred colts. He was running some of his horses recently and the one he was astride did not care to be held in so she threw Dave a somersault over her head and when he came to himself he was alone.

Mesdames Orin Swingle and Hugh Gilmore were out berrying last week.

Haying has been going along briskly for the last two weeks.

Agnetta Ellis and her infant daughter were visitors at her parents home in Bergen last week.

Mr. Brown was in the vicinity in the interest of the pools. I could say quite a bit about pools both damp and clay, shallow and deep, but the tears of remorse these signers will shed in years to come will make some puddle, "believe me."

SHOWER FOR "BRIDE-TO-BE."

The "shower" held in the Opera House on Thursday evening of last week, in favor of Miss MacIntyre previous to her marriage to Eluid Cressman, was aptly named, for throughout the early part of the evening gifts of all kinds were literally showered upon the table, in fact to the onlooker it looked like a downpour. Nearly two hundred people were present signifying in no small degree the respect and esteem in which the recipient was held, and the many expressions of good will extended her afforded sufficient testimony as to the popularity gained by her whilst engaged at the local telephone exchange. Presentation of the gifts to the fortunate couple was made by J. W. Phillipson, who in addressing Miss MacIntyre alluded to the courtesy and obliging manner consistently displayed and maintained by her in connection with her duties as operator, and in behalf those present wished her every happiness. The pleasure of the evening was considerably enhanced by refreshments prepared by the ladies, before and after which dancing was enjoyed by a large number.

Athletes at Medicine Hat

At the Medicine Hat sports held last week, R. Ford of Didsbury won third prize in the 440 yard event. In the non-championship events, another local boy, R. Berscht, was first in the hundred yards' dash and also first in the obstacle race. This latter was for boys under 18, and was open to the whole province.

EVANGELICAL NOTES.

Church Services
Sunday
10.30 a.m.—Morning worship.
11.30 a.m.—Bible School.
7.30 p.m.—Evening Worship.
Thursday
7.15 p.m.—Junior League of Christian Endeavour. Study of Catechism, etc.
8.00 p.m.—Praise and Prayer Service.
H. E. Roppel, pastor

Our annual children's day service last Sunday evening was well attended, even though the muddy roads kept many away. The children did real well in rendering the program to a full house. The free-will offering for foreign missions amounted to \$33.00.

Married on Wednesday afternoon Miss Annie Laurie Baker to Dr. H. C. Leisemer, at the home of the groom's parents. Full particulars next week.

It is expected that the bye-election in the Medicine Hat constituency will be held the latter part of September.

Representing education authorities and the public and secondary schools of Great Britain, about one hundred teachers from the United Kingdom arrived recently at Montreal on the "Empress of Scotland" and are now touring the country. Before their departure they received a congratulatory message from King George and on their arrival were tendered an official reception by representatives of the Quebec provincial government, prominent educationists and were entertained to dinner at the Chateau Frontenac by E. W. Beatty.

In a recently published monograph on "The Transportation of Canadian Wheat to the Sea" Miss L. M. Fair, M.A., makes the following comparison of Canadian and United States rates to show to what extent the resources of our railways are organized for the benefit of western producers:—

To Fort William	Miles	Rates per bu. wheat	U.S. Rates cents
From:—		cents	cents
Winnipeg	420	.08	.12
Portage la Prairie	475	.09	.13
Carberry	525	.09	.13
Broadview	684	.10	.18
Regina	776	.12	.21
Medicine Hat	1,076	.14	.27
Lethbridge	1,177	.15	.28
Calgary	1,243	.15	.31

IN A HERD of cattle there are some that experts call "select." Patrons of this shop are certain of SELECT MEAT. Care in purchasing is why we can supply everything choice in roasts, steaks and chops. Leave us your order.

We pay best prices on both Poultry and Eggs.
We also buy Hides at the best market price.

Stop! Look! Listen!

Within the short space of less than the life of a generation the automobile has worked a complete revolution in modes of transportation and in the lives of people. But owing to the recklessness of so many drivers of cars it has become a veritable nightmare to locomotive engineers. To a greater extent than anything else it is the cause of nervous breakdowns among trainmen.

This is the age of speed, and thousands of motorists delight in tearing along roads and over railway crossings at top speed although there is no need for haste. They ignore the fact that there is more real pleasure to be derived from leisurely driving, and that a moment's stop at a level railway crossing to allow an approaching train to pass is not lost time. They scorn the risk they themselves run, and every year hundreds pay the full penalty of their folly, while other hundreds have cause to remember in pain and a permanently crippled condition the terrible price they are paying on account of their heedlessness.

But there is another side to the picture, and a locomotive engineer of the Pennsylvania Railroad has written an article, appearing in The Outlook, in which he describes just what the reckless motorist, who tries to "beat" an express train to the crossing, costs the engineer in nerve stability, and the consequent danger to every passenger on the train. This article is so illuminating and timely that it is worthy of repetition. The locomotive engineer in question writes:

"Come and take a ride with me in the cab of my engine. I am going to drive her at the rate of sixty miles an hour, which means that sometimes she will go considerably faster than that. There will be thrills. Perhaps I should tell you in advance of some of the things you will see—and feel.

"There are grade-crossings, you know. The crossings are not dangerous, but the automobile creates a danger at them. I do not recall many trips when I did not have from one to three close calls. At practically every grade crossing without guard-gates some driver goes over after the whistle has been sounded. And where there are guard-gates, they sometimes smash them down and go over just the same. Perhaps you will understand the nature of the thrills better if I give you one or two specific instances.

"On the fifteenth of last January I took my run out at 5.41 a.m. An hour later, I was driving along at reduced speed, probably forty miles an hour. I whistled long and loud for a particularly bad crossing. When within about 150 feet of the crossing I saw lights bobbing around on the planks. That indicated an automobile—in motion. My fireman, as I afterwards learned, was looking directly at the car. It did not occur to him at first that the driver would try to get across. Then he saw him 'give her the gas.' Those bobbing lights, however, had enabled me to divine the driver's intention. I snapped the brake valve to full emergency position.

"We were three hundred feet past the crossing when the train stopped, but the emergency application of the brakes had stayed the engine the one instant that it took for the automobile to get over those rails. The fireman, in a tremulous voice asked me, 'Did he get over?' I answered, 'Yes, he did.' The fireman got up from his seat, came over to the gangway at the right side, and, talking as though that driver might be getting every word, said, 'Old fellow, no one but God saved you.'

"From that instant for the balance of the trip there was an engineer in the cab whose nerves were not fit for his job. Little clicks and knocks were so magnified as to make it seem that the engine was falling to pieces. While crossing a foreign railroad at grade, and having the signal to proceed, one of the foreign railroad's engines started to blow off steam. I started involuntarily from my seat, and it was only with difficulty that I forced myself to remain in the cab.

"Another time before that, after I had sounded the whistle for the crossing, two automobiles shot across, one right after the other, at about forty-five miles an hour. I was thinking how much better judgment those fellows would have displayed if they had stopped and waited only one minute for my train to pass when the fireman shouted to me, 'There's another!' Like a flash, a large coupe went across at about sixty miles an hour. In that coupe was a little girl about five years old on her knees looking out of the rear window. A woman, doubtless her mother, was at the wheel. To me, he looked as though the woman was not thinking of her child, but only of not being outdone by those other two cars—or by that train, either."

This engineer concludes by asking: "Were you ever held up at the point of a gun? I never was, possibly because I never had anything that the other fellow wanted, but I have heard men describe the situation. The hole in the gun-barrel looked as big as a washtub, the bullets the size of cannon-balls. But that feeling, when contrasted with that of the engineer when he is about to strike an automobile, is about as placid as the waters of the Amazon compared with Niagara Falls."

Possibly it is too much to expect a motorist, who risks his own life and the lives of his companions in a car, to give the slightest consideration to the locomotive engineer, or to the hundreds of passengers on the train whose safety depends upon the steady nerves of the engineer. But what grim tragedies would be prevented and suffering avoided if people would only realize that there is nothing "smart" in being a reckless fool.

Canada May Benefit

Englishman Left Fortune For Charity In United Kingdom

Nearly 200,000 pounds sterling for charity has been bequeathed by Col. J. Barlow, a magnificent supporter, in his lifetime, of Disley.

Col. Barlow made many visits to Canada in connection with rifle shooting. Canada may benefit under his will, as he left the residuary estate "to be applied, within 21 years of his decease, for such charitable purposes within the United Kingdom, Ireland, India, or any British state, colony, or dependency, as the trustees, in their wisdom, think fit."

The will adds that Col. Barlow desires that no money left by him shall be used for sectarian or political party purposes.

Pain In The Muscles, Stiffness In Joints, Quickly Subdued By Nerviline

Those who have tested out numerous liniments will agree that where something is needed to dislodge a deep-seated, more or less chronic condition there is nothing to compare with Nerviline. It's because Nerviline penetrates so deeply, because it has about five times the strength of the ordinary oil preparation, it has come to be known as King over all Pain. For Rheumatic conditions, muscular and joint stiffness, Nerviline works wonders. A trial proves this. Get a 35 cent bottle from your dealer today.

Building Great Cathedral

A further stage in the building of Liverpool Cathedral has just been entered upon, in the ceremony of "breaking of ground" for the foundations of the central space and tower, and of the western transepts.

When completed Liverpool Cathedral, which was begun in 1905, will be the second largest in the world. It is the only Anglican Cathedral in these islands to be built from the foundations since the reformation.

THE ONE SURE WAY TO GOOD HEALTH

Is Keeping the Blood Pure By Using Dr. Williams' Pink Pills

Impure, weak blood is the cause of most of the troubles that afflict people. This is the cause of the wretched feeling of languor and faintness, pains in the back and side, headaches and breathlessness, that afflict women and make her daily life a torture. To get new health and strength the blood must be enriched. What Dr. Williams' Pink Pills do in cases of this kind is told by Mrs. Augusta Emery, Woolford Station, Alta., who says: "Living on the prairie, and knowing that there are thousands of women like myself miles away from a doctor, I want to tell you what Dr. Williams' Pink Pills have done for me. After my first baby was born I seemed to have little energy. I felt weary and run-down and unable to do even the ordinary household duties. I felt I needed a tonic and as I had long seen Dr. Williams' Pink Pills advertised I decided to try them. I got a supply and carefully followed the directions and before very long the result was wonderful. Day by day I regained my former strength and energy. The pills seemed to give me a keen appetite and I gained in weight and soon was able not only to do my work about the house, but to help with many chores on the farm. For this reason I would advise women, particularly those on the prairie or the farm, to keep a supply of these pills always on hand. One trial will convince you of their worth. I have recommended them to many of my friends and never have they failed to produce good results."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Bear Took Photograph

A camper in one of the national parks in United States, had just set up a tripod to take some pictures of mountain scenery. A bear suddenly appeared and the amateur photographer started running down the mountain side. When the plate was developed later, it was found that the bear in some way had tripped the shutter of the camera and had taken a good picture of the man running down the mountain side.

Medicine Hat Gets Convention

Medicine Hat secured the 1926 convention of the Western Canada Irrigation Association when the matter was debated at the convention in session in Kelowna, B.C.

Minard's Liniment for Dandruff

W. N. U. 1591

A Freak Lightning Bolt

Bolt Doing Damage In Truro, N.S., Came From Cloudless Sky

From a cloudless sky a bolt of lightning, accompanied by a deafening thunder, descended upon Walker Street in Truro, N.S., shattered a tree, entered a house via the telephone wires, burned a telephone box, and left by an open door, in which a young child was standing.

The child was unhurt, but a pedestrian on Walker Street, was stunned and several others were shocked, while telegraph instruments a quarter of a mile away were put temporarily out of commission.

There was but one bolt of lightning and one clap of thunder and through it all the sun shone brilliantly and not a cloud was to be seen. A similar occurrence was recorded there three years ago.

Operated With Crude Outfit

Doctor in Alaska Used Jack-Knife and Denatured Alcohol

A tonsil operation was performed recently at Berling River on Controller Bay, 60 miles east of Cordova, Alaska, by Dr. W. W. Council, of Cordova, with a jack-knife and denatured alcohol.

When Dr. Council arrived at Berling River from a hunting trip he was called to handle the case. He had no implements. With the crude outfit he performed the operation with success. No anaesthetic was administered. The alcohol was used to sterilize the knife.

Its Quality Sells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, scalds, and various inflammatory pains its record is beyond reproach.

Free Insulin

New Government Policy to be Administered in Alberta

Free insulin supplies will be provided by the Alberta department of health in cases where the patients are not able to otherwise secure them. Hon. George Hoadley, minister of health, announces this as a new government policy to be administered through that department. The minister's attention to the matter was invited a short time ago by the editor of the Hanna Herald, who reported a number of cases in need of treatment but unable to meet the cost. It has now been decided to provide insulin for all such cases making application, and supplies will be sent out from the health department in Edmonton. Each application will be received and dealt with on its merits and necessary investigation as to medical diagnosis and financial circumstances will be made before issuing the supplies. Alberta will in this way be adopting a similar course to that already taken by the province of Ontario.

Eagles Travel By Aeroplanes

Two Birds Develop Ravenous Appetite On Unaccustomed Flight

A pair of golden eagles, presented to the Zoological Garden at Schoenbrohn by King Ferdinand of Rumania were shipped to their destination in an aeroplane. This unique mode of transporting the two sovereigns of the air was employed by orders of the Royal donor, who wished his gift to arrive as a surprise. The only effect this unaccustomed flight seemed to have had on the two birds was to give them a ravenous appetite.

Minard's Liniment for Corns and Warts

Walking machines, which can produce in a few hours the amount of wear on shoes that would actually take place in six months of use, are employed for testing the quality of shoes.

Gas for street lighting was first used in Baltimore.

Safe Accept only a Bayer package

which contains proven directions Handy "Bayer" boxes of 12 tablets Also bottles of 24 and 100—Druggists Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monacalceidester of Salicylicacid.

Tariff Experiment Fails

Irish Free State Will Likely Drop Most of Duties

The Dublin correspondent of the London Westminster Gazette says the tariff experiment started by the Irish Free State about two years ago has failed so signally that it is likely most of the duties will be dropped. The idea was, of course, to protect and foster Irish manufacturers, but, the correspondent writes, foreign goods have not been excluded, while prices naturally have risen and the consumers paid the penalty.

He cites the motor car trade among those especially affected, saying the purchase of cars has diminished considerably, while all goods, except tobacco and household furniture, have suffered and several Dublin firms have been unable to pay their way.

Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple preparation to destroy stomachic and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and painlessly, and though in some cases they may cause vomiting, that is an indication of their powerful action and not of any nauseating property.

Plan Labor School

Efforts will be made to form a labor college for British Columbia during the sessions of a school of social science, which has been opened at Summerland, B.C. Men and women from all parts of the Canadian west, from as far east as Winnipeg, are scheduled to attend the meetings.

Relief from Asthma. Who can describe the complete relief from suffering which follows the use of Dr. J. D. Kellogg's Asthma Remedy? Who can express the feeling of joy that comes when its soft and gentle influence relieves the tightened, choking air tubes? It has made asthmatic affliction a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

Farmer Anderson: "So your boy's got home from college. Does he take any interest in the farm?" Farmer Gray: "He's beginning to. He's been showing me where we could have a fine golf course and how easy 't would be to turn the barn into a garage."

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Exterminator to give relief. Its effects are sure and lasting.

New Homestead Record

Setting the highest monthly record in nearly three years, 109 homesteads and 12 soldier grants—a total of 121 quarter sections—were filed upon at the Dominion land office at Edmonton in the month of July.

Full particulars are given in a booklet which will be sent free. Toronto College of Chiropractic, Deot. A, Yonge and Charles Streets, Toronto.

NORTH COUNTRY RAILWAY NEEDS TO BE CONSIDERED

Calgary.—"There is a large productive territory in that north country, which includes not only the Peace River district proper but the district north of the Peace, whose traffic possibilities we cannot and will not ignore," said Sir Henry Thornton, president of the Canadian National Railway, in replying to a question regarding the Edmonton, Damsagan and British Columbia Railway.

In connection with the negotiations now pending for the running of the line either by the Canadian Pacific or the Canadian National, Sir Henry stated another conference was to be called by the premier.

Asked what foundation there was for the persistent rumors in the east that there is a possibility of the Canadian Pacific and the Government lines fusing, Sir Henry remarked this had been talked about, but there was nothing yet of a tangible character.

It is a very large and many sided question and it should be viewed solely with respect to the welfare of the Dominion as a whole, he said.

He added that personally he was not in a position to express any opinion at all.

"The latest information is that you will remain in Canada?" It was suggested.

"There has been no discussion at all with respect to the continuance of my work here," said the president, "and it is naturally a matter that is in the hands of the proper persons."

Asked who the latter were, Sir Henry said he supposed that in the last analysis they were the people of Canada.

Leaves Cares Of Office

Officialdom of Britain Off on Autumn Holiday

London.—If a rival power should open war on England tomorrow, the measures of defence would have to be organized by junior officials. The British Government has gone grouse shooting, motoring and general holidaying.

King George and Queen Mary are visiting Princess Mary at Goldsborer Baldwin has left for his country ough Hall, Yorkshire. Prime Minister Churchill has gone to Surrey, where he is painting pictures. Lord Birkenhead is shooting in Scotland, where are also Admiral Lord Beatty, Field Marshal Earl Haig and other chiefs of the fighting services. The home secretary, Sir William Joynson Hicks, is giving the Communists a rest for a while while he shoots grouse, and the war minister has gone to the seaside to recuperate.

Most of the chiefs of the permanent staffs of the government offices are also taking holidays in the last half of August and most of September.

To Check Rum Running

Conference Between Officials of Dominion and U.S. Government

Washington.—Canadian representatives to attend the conference between officials of the Dominion and United States Governments to draw up regulations to give effect to the recent treaty to suppress smuggling across the border, arrived here today.

The chief purpose so far as the United States is concerned, is to tighten the border restrictions against rum smuggling and narcotic smuggling, and for this reason Assistant Secretary of the Treasury Andrews, new head of the prohibition enforcement, will be prominent in making the regulations.

Wage Board To Meet

Saskatoon.—A meeting of the Saskatchewan fair wage board will be held in Regina in September, at a date not yet decided. John A. Mather, chairman of the board, announces. Mr. Mather had not yet received any notice of business of unusual moment. He expected that routine matters would largely occupy the attention of the board.

A day of fog in London is estimated to have cost the county council tramways £4,000.

W. N. U. 881

Ready To Argue Claims

British Columbia Has Completed New Case In Freight Rates

Victoria, B.C.—British Columbia has completed preparation of its new freight rates case, based on recent parliamentary legislation, it has been announced by Premier John Oliver, after G. G. McGee, government counsel, had telegraphed to the railway board, urging an immediate ruling or an immediate argument on this province's claims for lower western grain rates.

"We are ready now to argue our claims any time," Mr. Oliver stated. "On account of the rate legislation passed by parliament at its recent session, we will hold the railway board actually has no alternative but to give us the same rates on westbound grain as those prevailing on eastbound grain. We assert we are entitled to Crow's Nest rates and want them to apply on the movement of this year's crops."

Edmonton.—A saving of about five cents per bushel to Peace River farmers and shippers will be effected if the railway commission gives an order making the Crow's Nest freight rates on grain applicable to the E. D. and B. C. and Central Canada Railways. Request to the board for such an order has been made by A. Chard, government freight supervisor, and it is expected the reduced scale will be effective in time for the movement of this season's crop.

Worried Over Polish German Trade War

Danzig Business Men Do Not Profit By Exemptions

Danzig.—The trades war between Poland and Germany now in progress may have one beneficial result in the opinion of many Danzig business men, if it will mean the defection of Upper Silesian coal to the countries bordering upon the Baltic Sea which were formerly a part of the Russian Empire. Such a defection would, in their opinion, prove an advantage to four interested groups; the Poles would have a promising new market in exchange for the German; Danzig would gain much new business as the shipping port; the Baltic countries could obtain the coal more cheaply than they can now buy English coal; Germany could dispose of her Ruhr coal without the interference of Upper Silesian coal competition.

The people of Danzig are the innocent victims of another phase of the rate war between Germany and Poland. Goods of purely Danzig origin may go to Germany unmolested and in return foodstuffs and other articles intended purely for Danzig are permitted to come into the Free City exempt.

As a matter of fact there are practically no "goods of purely Danzig origin," consequently exempting that class of merchandise affords little comfort to the Danzig business man.

Miners Accept Terms

London.—A conference of delegates of the Miners' Federation decided to accept the terms of the truce in the coal industry on which the mine owners' notices for the termination of the 1924-25 wage scale were withdrawn, thus averting the recent threat of a strike. The conference instructed the executive of the federation to take such steps as might be necessary to present the miners' case before the proposed government commission of inquiry.

Painleve Cabinet Doomed

Paris.—Premier Painleve's compromise cabinet was doomed when the Socialist Congress, representing 104 direct votes in the Chamber of Deputies, decided overwhelmingly against giving any support to the present cabinet.

The resolutions of Leon Blum and Paul Faure, declaring war on Painleve, were carried by 210 votes against 559, for a motion urging a benevolent attitude toward the present government.

Low Water In Lake Ontario

Rochester, N.Y.—Concern has been caused here by the fact that Lake Ontario is smaller and shallower than it has been in the last quarter century. Government experts here declare that the Chicago drainage canal, completed last year, which diverts water from Lake Michigan through the city of Chicago and into the Mississippi Valley, for sanitary purposes, is responsible.

FUNDING OF THE BELGIAN DEBT TO UNITED STATES

Brussels, Belgium.—Great reserve is shown by the Belgian press in commenting on the news from Washington of the agreement reached there for funding the Belgian debt to the United States.

Vingtieme Steele emphasizes the conditional character of the proposed arrangement and recalls the manner in which the American Senate refused to honor the signature of President Wilson to the peace treaty.

The paper questions whether Belgium is to be congratulated on the terms reached at Washington, even if the conditions as outlined in the dispatches received here are confirmed.

London.—Official circles here were silent today regarding the settlement reached in Washington for funding Belgium's debt to the United States.

The impression was given, however, that the favorable nature of the terms was to be expected, and that unless close study revealed new angles at present unknown, the British Government would not depart from its previous policy of refraining from pressing Belgium in connection with her financial obligations to this country.

Criticizes Canada's Navy

Sarcastic Article Appears in Weekly Paper in London

London.—A writer in Truth, the weekly paper which frequently comments upon the paucity of Canada's contribution to the British navy, says:

"As The Toronto Globe recently was very much displeased with me for quoting the precise figures of the Dominion's contribution to the sea power of the empire, I think it right to tell the world that one-half of the active Canadian navy has now put to sea to cruise in company with the Capetown of the North American squadron. In other words, the destroyer Patricia has left her moorings at Esquimalt and will not return until the beginning of October."

"What the other half of the active Canadian navy is doing I have no information at the present moment, but I believe she is assuring the safety of Halifax."

Lost Their One Laundryman

Hawaiian Citizens Greatly Resented Arrest of Only Chinaman

Honolulu.—The laundry business in Honolulu, Island of Malu, Hawaii Territory, has been paralyzed, and frate calling a protest meeting, all on accitizens, deprived of clean shirts, collars, etc., have been on the verge of count of the Harrison narcotic law. Such was the story told by J. A. Manning, federal narcotic chief for Hawaii, on his return from Malu, where he arrested, among others, the town's only laundryman, Chow Wing.

"One hotel had no linen, and everyone in the village seemed to have a dress or a shirt in the hands of Wing Chow," Manning said. "To hear the grief and protests, you would have thought the patron saint of the town had just expired."

England Plans New Air Service

Passengers Would Be Landed At Airport On Thames

London.—A new development in air service between the continent and London is being planned for the near future. Experiments are being carried out with a view to the establishment of an airport on the River Thames at Hammersmith, just below Putney, where French amphibian planes will alight and set down passengers on a specially constructed landing stage. The authorities stipulate that such landings shall occur before nine o'clock in the morning so that dislocation of river traffic may be avoided.

Curtails Exploration For This Year Washington.—The MacMillan Arctic expedition has abandoned hope of carrying out its full exploration programme over the Polar Sea this year.

Curtailment of the expedition's activities was forced by adverse weather, which has locked the Northland in ice and fog, well ahead of the usual winter season.

Return Russian Warships

French Government Decides to Hand Ships Over to Soviets

Paris.—The French Government has decided to hand over the Russian warships now at Bizerta to the Soviets. The Soviets, in an agreement drawn up by Ambassador Krassin and Deputy Vincent Danblov, the French delegate, recognize the Czarist debt of \$1,800,000,000 and give French capitalists a contract to reconstruct Russia in return for huge French credits.

The Soviets promise every one of the four million French Russian bondholders ten per cent. of his holdings in new Soviet bonds and ninety per cent. in bonds of new Franco-Russian companies, which will be formed to exploit mines, forests, factories and oil fields in Russia. However, it is understood that the whole debt has been reduced from gold to paper francs.

The Russian fleet at Bizerta, formerly held by General Wrangel who was defeated by the Soviets in the Crimea, consists of two dreadnaughts, two battle cruisers, nine destroyers, four submarines, one school ship and some auxiliaries.

Predicts War Between States and Japan

British Author Says Conflict Will Start March 3, 1931

London.—Japan will declare war on America on March 3, 1931, by completely blocking the Panama Canal. Japan will then capture the Philippines after wiping out the American Asiatic fleet. A mighty Japanese air fleet launched from ships will proceed to bomb and destroy San Francisco, Oakland, and Los Angeles.

After a tremendous loss of life, money and territory, the American fleet will win the war by annihilating the Japanese grand fleet in mid-Pacific in one of the greatest battles in naval history.

This prediction of conflict between America and Japan is made in a book, entitled "The Great Pacific War," by Hector Bywater, noted naval architect and strategist. The book, just published here, is causing keen interest in military and naval circles.

Explorers Ordered To Leave Mongolia

Government Alleges Leader of Expedition Has Violated Agreement

Urga, Mongolia.—The Mongolian Government has ordered the third Asiatic expedition of the American Museum of Natural History, under the leadership of Roy Andrews, to cease its exploration and scientific work and to leave Mongolian territory, alleging that Mr. Andrews has violated the terms of his agreement with Mongolian scientific organizations.

The Mongolian Government further alleges that besides carrying out his scientific work in the domains of paleontology, geology and zoology, Mr. Andrews' expedition has also engaged in topographical work and has employed a number of suspicious—in a military sense—persons.

Mr. Andrews also is accused of carrying on political propaganda and stirring up the Mongolians against the Red Bolsheviks.

Shipping Flowers To England

Canadian Blooms Are a Surprise to English People

Ottawa, Ont.—Reports indicate that thousands of cut flower blooms are now being shipped to England from Canada. From Montreal a landscape gardener has sent over 8,000 peony blooms, ablaze with a riot of colors, to England to grace the offices of the C.N.R. and C.P.R. at Wembley. It is customary for flowers shipped from Canada to England to be kept in cold storage, arriving with the freshness of the Maple Leaf's fertility. English people are noted for their fondness of flowers, but the Canadian blooms have been a surprise. The Canadian peonies have proven to have a far more flourishing bloom than the peony grown in the Old Country.

Chicago Editor Dead

Chicago.—Victor F. Lawson, editor and publisher of the Chicago Daily News, is dead. Mr. Lawson had suffered heart attacks in recent years from overwork, and an attack with acute dilation, proved fatal.

PROPOSE UNITING VETERANS IN ONE ORGANIZATION

Toronto.—As the result of a province-wide conference of war veterans here, the veterans of Ontario achieved the most important forward step yet made in the direction of uniting all ex-service men under the banner of one great Canadian organization.

The gathering, made up of 159 accredited delegates from all parts of Ontario, met under the title of the Ontario Veterans' Unity Conference.

The outstanding business achieved was the unanimous carrying of a resolution favoring Dominion-wide unity of veterans; the appointment of a committee of seventeen representative veterans to represent all Ontario veterans at a Dominion unity convention of war veterans to be held at Ottawa not later than October 31, and the selection by the Ontario veterans of the name Canadian Legion of Veterans as the name of the new body in which all war veterans will join forces.

Saskatchewan Lignite

Briquetting of Saskatchewan Lignite Technically Successful

Regina, Sask.—Carbonizing and briquetting tests on Saskatchewan lignite, which have recently been carried out in Germany, have proven technically successful, said W. C. Worcester, professor of ceramics engineering at the University of Saskatchewan, who was in charge of the tests and reported to the government upon his return to the city.

The tests have been carried out during the past two summers at two of the largest briquetting plants in Germany. These were Thyssen & Company, at Hulsheim-Ruhr and the Lurgi Company at Frankfort. Fifty-two tons of lignite from the mines of the Western Dominion collieries at Taylorton were used in the tests.

Wheat Board Surplus

Saskatchewan's Share To Be Paid At Once

Ottawa.—Confirmation of the arrangement for the immediate payment of Saskatchewan's share of the wheat board surplus was made here by Hon. J. A. Robb, acting minister of finance. The sum in question, totalling approximately \$268,000, will be forwarded to the Saskatchewan Government in the course of the next two or three days; and represents, it is understood, the proportion of the surplus due to that province, of those who had sent wheat to the board for sale and distribution, at the time the Canada wheat board gave up office in 1921. Payments of the respective shares due to Alberta, Ontario and Quebec have already been made, it is stated.

Tourist Traffic Heavy

Over Two Hundred Cars Go Into Banff Daily

Edmonton.—Two hundred and twenty motor cars per day have been going into Banff this summer. The provincial highways branch has a statement from the superintendent of the Rocky Mountain Park showing that from June 1 to August 7 the traffic dues were collected at the east entrance to the park on the Calgary-Banff highway from 8,560 cars west-bound and 6,680 east-bound. This is a total of 15,240 for sixty-nine days, and the average is still keeping up.

New Grain Inspector

Calgary.—George Hill, Dominion Government grain inspector in Calgary, has been offered and accepted the appointment of chairman of the grain appeal board authorized by the board of grain commissioners under the new Grain Act.

Mr. Hill will commence his new duties on September 1. He will be located in Calgary.

May Adopt Blue Sky Laws

Victoria, B.C.—If the inter-provincial conference in Winnipeg this week succeeds in clarifying federal and provincial jurisdiction, the Government of British Columbia will consider the advisability of putting new "blue sky" legislation on its books to protect investors from unscrupulous promoters. Attorney-General A. M. Manson announced today.

DR. HAMILTON'S PILLS

WORLD HAPPENINGS BRIEFLY TOLD

Cardiff, Wales, is advertising for tenders for 500 wooden houses and expects to get them from Scandinavia.

An expedition has left here to explore the eastern shores of the North Arctic Ocean, proceeding later to Cape Hope, Alaska.

Lieut.-Col. C. P. Meredith has taken over his duties as secretary of the League of Nations Society of Canada, succeeding H. G. Richardson, recently resigned.

The delegates of the Empire Press Union, enroute to the Imperial Press Conference to be held in Australia, were given a civic welcome at Auckland, N.Z.

Professor Henri Louis Bergson, France, has resigned as president of the committee of international intellectual co-operation of the League of Nations, on account of ill-health.

The Soviet Government, dissatisfied with some of its foreign embassies and legations, is planning a sort of travelling cheka which will travel over the world and check up on the diplomats.

It has been announced that all the provinces of the Dominion would be represented in the livestock exhibits at the Royal Winter Fair in Toronto. It was also stated British Columbia would send an exhibit of fruit.

The British Columbia Legislature will assemble for its annual session on October 26. A fall session is preferred by a majority of members of the house to a spring sitting, such as had been postponed earlier in the year.

Senator Webster has been in England making arrangements for the shipment of supplies of Welsh coal to Canada. In case of a coal miners' strike in the United States, the Welsh business will profit very materially by the Canadian trade.

The probe conducted by chief inspector of prisons, A. L. McPherson, into the food served to prisoners in the jails and institutions of Ontario has revealed that there is no general objection to the mush and syrup diet prescribed by the regulations.

King Presents Colors To Welsh Guards

These Bear Record of War History of Regiment

New colors were recently presented to the Welsh Guards. For the ten years since the formation of the regiment the Welsh Guards have carried colors on which no name of a battle has been emblazoned, but at a picturesque service at Windsor Castle, the King presented them with new colors that are a record of their glorious war history. The King said: "Ten years ago, when your regiment was raised, I presented its first colors at Buckingham Palace. Shortly after that period the regiment was called upon to fight for its country, and today its noble deeds in the Great War are inscribed upon your colors."

Good Fur Catch

The first batch of last winter's furs brought from the Far North by the steamer Distributor, from Aklavik, has arrived at Edmonton and is valued at approximately \$1,000,000. Good catches of furs were reported throughout the north.

For Warts

Apply Minard's freely and often and watch them disappear.

W. N. U. 1591

Reaches Top Record

68,000 Auto Licenses Issued in Saskatchewan This Year
Up to Aug. 12 68,000 private auto licenses had been issued in Saskatchewan, according to report of E. W. Kerr, provincial license inspector. This is an increase of approximately 4,000 over the record number issued in 1924. Truck licenses issued this year to date number 5,000. Mr. Kerr estimated that livery and dealer licenses issued so far would total approximately 1,500 each.

Transferring of licenses from one car to another is another matter which is giving considerable trouble, he said. In changing cars, the owners must secure a transfer of license through the department. The mere transfer of the license plates from one car to another is not sufficient. Persons who do not see to the proper transfer of the license are actually driving the new car without a license. Mr. Kerr pointed out.

Many people are under a false impression as to the issuing of half-price licenses, Mr. Kerr said. These are not issued on and after July 1, but any person purchasing a car after October 1 may secure a license at half-price, but must furnish an affidavit that the car had not been used in the province prior to that date.

Stop the Cough.—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

1046—Men's and youth's shirt; attached or separate collar, and turn cuffs. Sizes 34, 36, 38, 40, 42, 44 and 46 inches breast. Size 36 breast requires 3 1/4 yards of 32-inch or 36-inch material. Price 20 cents.

1139—Men's and youth's union suit; high or low neck, with or without set-in sleeve. Sizes 34, 36, 38, 40, 42 and 46 inches breast. Size 34 is for 32 or 34, size 38 for 36 or 38, size 42 for 40 or 42, and size 46 for 44 or 46. Size 38 breast requires 3 1/4 yards of 32-inch or 36-inch material. Price 20 cents.

1157—Men's and youth's nightshirt, with or without yoke and fullness at back. Sizes 36, 40, 44 and 48 inches breast. Size 36 is for 34 or 36, size 40 for 38 or 40, size 44 for 42 or 44, and size 48 for 46 or 48. Size 40 breast requires 1 1/4 yards of 36-inch, or 1 1/2 yards of 40-inch material. Price 20 cents.

Many styles of smart appeal may be found in our Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy. Each copy includes one coupon good for five cents in the purchase of any pattern.

SUNDAY SCHOOL LESSON

AUGUST 30

PAUL AND THE PHILIPPIAN JAILOR

Golden Text: Believe on the Lord Jesus, and thou shalt be saved. Acts 16:31.

Lesson: Acts 16:16-40.

Devotional Reading: Psalm 40:1-5, 11-13.

The Text Explained and Illumined

The soothing maid of Philippi, verses 16:18.—Some time after coming to Philippi, as Paul and his companions went to the place of prayer where he was wont to preach, he was annoyed by a fortune-telling maid who kept crying out after them. Her monotonous chant disturbed him, and drew an uncomfortable crowd of curiosity seekers. Day after day she cried, "These men are servants of the Most High God, who proclaimed unto you the way of salvation." In the margin of the Revised Version the alternative translation for "a soothing maid" given is "a maid having a spirit, a Python." The great dragon at Delphi slain by Apollo was called a Python, and according to Plutarch so also at this time was a ventriloquist. Dr. Ramsay says that "God the Highest" was a widespread pagan expression, and "salvation" was the object of many vows and prayers to the gods. He further says that the slave girl's mind became distorted and diseased by her belief in her super-natural possession, but it became all the more acute in certain perceptions and intuitions, and she became at once alive to the moral influence which the intense faith of the strangers gave them.

Paul in the name of Jesus Christ bade the spirit leave her. And she was freed. "Paul's power over her was not necessarily miraculous; it was that of a good man over a sensitive nature. This slave girl became the second Christian convert in Philippi and led up to another conversion equally strange."

Venice May Lose Isolation

Automobile Road Will Connect Island With Rest of Italy

Loss of the isolation which the city of Venice, as an island, has enjoyed for centuries is threatened by the arrangements which have been completed for the construction of an automobile road connecting Venice with Padua. Later, it is planned to join this road to the Padua-Milan road.

The importance of this project arises from the fact that hitherto the city of Venice has never been joined by road to the rest of Italy, the only communication being by boat or by train crossing by means of a pontoon bridge.

For COLIC AND CRAMPS PAINS IN THE STOMACH. There's Nothing Equals

It has been in use for over 80 years; its action is pleasant, rapid, reliable and effectual, and relief comes promptly.

"Don't accept a substitute." The genuine is put up only by The T. Milburn Co., Limited, Toronto, Ont.

Made Productive By Irrigation

Situated in the centre of a district which has changed from a comparatively barren cattle ranging country to a productive fruit raising area by irrigation, Kelowna was the scene of the nineteenth annual convention of the Western Canada Irrigation Association. Delegates from British Columbia, Alberta and Saskatchewan, as well as representatives of the railways, governments, etc., were in attendance.

In Mourning For Sir William Petersen

Ship Will Display Broad Ribbon Mark For Six Months

Montreal has, for the first time, seen a ship in mourning.

It was the Rio Dorado, of the Petersen Line. As she steamed up the St. Lawrence, the now famous "corrugated ship" was conspicuous for a broad blue band painted all about the hull about four feet below the top deck. This ribbon mark formerly was white, and it will remain blue for six months as a mark of respect to the memory of the late Sir William Petersen, head of the line, who died suddenly in Ottawa some time ago while on a visit in connection with the proposed ship subsidy plan.

Captain R. Hockin, who gave evidence before the ocean rate committee in the House of Commons in praise of the "corrugated" ship experiment, is in command. He reported his vessel continues to live up to her record for speed on a 60 per cent. consumption of fuel.

Canada Interested In Radio

Saskatchewan Stands Second to Ontario in Number of Licenses Issued

Canada spent \$5,614,790 on radio sets and parts in 1924.

Public interest in radio broadcasting, and the consequent demand for apparatus has created a new industry.

A report issued by the Dominion bureau of statistics shows that production of radio sets and parts in Canada last year amounted to \$3,201,103.

Radio licenses were issued by the department of marine and fisheries during the 12 months ending March, 1925, to 92,996 persons. Ontario led all provinces with a total of 41,847. Saskatchewan took 2,303, Manitoba 6,553, British Columbia 6,409, and Alberta 5,813.

Minard's Liniment for Burns

Answer To Last Week's Puzzle

Buried For Seventeen Centuries

The body of Saint Christina the Virgin, buried seventeen centuries ago in the Catacombs of Rome, has been brought to New York. The body will be deposited in the Roman Catholic Cathedral at Cleveland. It was presented to Bishop Joseph Schrembs by the pope in recognition of the generous offerings made through the bishop by his diocese for the erection of the "House of Catacombs" built by the Pontifical Commission on Sacred Archaeology.

Your eyes are too valuable to be "practiced" on.

Exact testing cannot be done, except in a properly equipped office.

AROUND THE TOWN

Miss Florence Reiber has been visiting friends in Calgary this week.

Mrs. E. Hopkins left on Tuesday for Los Angeles to resume her duties as teacher.

Chris. Ehrst has purchased from the Stevens' Service Shop a model 91 touring Overland.

Mrs. S. G. Watt and family are expected home this week-end from Buffalo Lake.

C. H. Adshead is spending a week at Wainwright and other places round about.

Harold Stauffer has returned from Banff and resumed his former duties at the C.P.R. depot.

Mr. and Mrs. C. F. Dooley returned on Sunday from a few days' visit with friends in Calgary.

H. B. Adshead of Calgary has been paying his son a visit here during the past week.

Mr. and Mrs. Fred Bahm are expecting to return to Didsbury shortly from Oneonta, New York.

Mr. and Mrs. A. F. Brusso returned last Wednesday from a visit to Vancouver and other coast points.

Mayor H. W. Chambers, who has been visiting friends in the east, returned on Wednesday morning.

Frank Kauffman's father and mother arrived from Mildmay, Ont. this week and will visit with him for a while.

Don't forget the dance in the Opera House to-morrow (Friday) night. Good music and a good time assured.

Joy for the juveniles! Didsbury's schools, both the high school and public, will re-open on Tuesday, September 1st.

The Wednesday half holiday in Didsbury, which has been in force since May 20th, terminates on September 1st.

The N. Bawlf Grain Co. have taken out this week their 10 h.p. engine and substituted a 15 h.p. Fairbanks-Morse.

Commencing this week, the office of Dr. H. C. Leisemer will be closed for about three weeks during his vacation.

Mr. J. Benson and her daughter Phyllis, from Nelson, B.C., are visiting at the home of Mr. and Mrs. H. Reiber.

Married—On Monday, August 24th, at the home of the bride's parents, Calgary, Miss Mary MacIntyre to Mr. Eluid Cressman.

John Schmidt and daughter Laura of Elmira, Ontario, arrived here this week on a visit to friends and relatives in town and district.

R. O. Binns, formerly of the local branch of Union Bank, has been transferred to the branch at Innisfail in the capacity of teller.

That the Didsbury General Hospital is still retaining its usefulness and winning approved recognition from the residents of the district, is proven by the fact that week by week its capacity is taxed to the full. Since the advent of the present matron, there have been admitted forty-nine patients, and forty-four have been discharged. Of operations, it will surprise many to hear, there have been no less than thirty-six, major and minor. The extent to which the hospital is now used and the large territory from which the patients now come, is very significant, and would seem to indicate that at no distant date a larger institution may have to be considered.

New Passenger Cars sold in Toronto during the month of July was an Overland or Willys-Knight. Seven months' Overland sales in Canada this year exceed last year's total sales.

The Overland is now the World's lowest priced car with sliding gear transmission. Oceans of power and millions of capital behind it. We believe it the best in the world for the money.

Before You Buy See The New Overland

Ride in it, drive it and know the joy of it's big power and comfortable riding qualities.

CASH YOUR CHECKS

American Bankers' Association, through its press bureau, suggests that it is not good policy to carry around a cheque for an indefinite time before cashing it.

The advice is sound.

First of all, it's easy to mislay a cheque. If you carry it around endorsed and then lose it, the finder will find it as negotiable as specie.

If it gets worn or dirtied in your wallet the signature may become almost illegible and your bank may refuse to cash it.

Further, it causes serious inconvenience to the bank. The bank keeps its books carefully balanced, and a cheque that is made out but not cashed for some time brings no end of annoyance.

When you get a cheque cash or deposit it at once.

INTERESTING ANNOUNCEMENT

Word comes from Montreal that that great family and farm paper The Family Herald and Weekly Star has been enabled to reduce its subscription price to One Dollar a year. This certainly will be interesting news in every Canadian home where the Family Herald is known and to many who will avail themselves of the offer. At Two Dollars a year The Family Herald and Weekly Star was generally admitted to be good value, in fact big value, but when reduced to One Dollar a year it will certainly be the marvel of the newspaper world.

Canada is proud of that great Weekly, and has every reason to be so, as it has no superior and few equals in the world today. The Publishers announce that notwithstanding the change in price every feature will not only be maintained but improvements will follow.

LIESEMER—BAKER

A very pretty wedding took place at 2:30 o'clock on Wednesday afternoon, Aug. 26, at the home of Mr. and Mrs. Geo. Liesemer, Didsbury, Alta., when Miss Annie Laurie Baker, Harrowsmith, Ont., was united in marriage to their only son, Dr. Herbert Conrad by Rev. H. E. Hoppel, pastor of Zion Evangelical Church.

The wedding parlors were prettily decorated with ferns and flowers; the ceremony taking place under a beautiful arch of drooping foliage. The groom's sister, Miss Laura Liesemer played the wedding march while the groom and the officiating minister stepped under the arch to meet the bride, who at her appearing a moment later, looked charmingly handsome, dressed in pansy satin crepe carrying a beautiful bouquet of bridal roses.

In the absence of the bride's father, she was very gracefully supported and given away by the groom's uncle, Mr. W. G. Liesemer. About forty related guests were present, whose many and appropriate presents given by them give evidence of the high esteem in which this young couple is held among their friends and relatives. Immediately after the ceremony congratulations—being extended, the guests all repaired to the dining rooms where a bounteous wedding dinner was served, the tables being most suitably decorated for the occasion.

The happy couple left on the evening 5 o'clock train amid showers of confetti and good wishes for their honeymoon. The bride travelled in a navy blue suit with hat to match. They will visit the bride's parents in Harrowsmith, Ont., also Toronto, Detroit and other points. On their

return Dr. and Mrs. Liesemer will take up residence in Didsbury.

Other Evangelical notes are unavoidably held over until next week. Ed. Pioneer.

IN MEMORIAM.

In loving memory of our dear little Marjorie, who died Sept. 3rd, 1922.

Mr. and Mrs. D. Sinclair.

Mr. and Mrs. Leadbetter have had visiting them, during the past week, H. V. Wells, a nephew of theirs from Birmingham, England.

The Women's Institute will meet at the home of Mrs. Norman Clarke on Friday, September 11th, at 2.30 p.m. Members will please meet at the drug store where cars will be waiting.

The W.C.T.U. will hold their regular meeting at the home of Mrs. W. Rupp, on Thursday, Sept. 10, at 2.30. Will all who wish to attend meet at the drug store at 2.15 where cars will be waiting. All ladies are invited.

Here and There

The first batch of last winter's furs brought from the Far North by the steamer "Distributor," from Ak-lavik, has arrived at Edmonton, Alta., and is valued at approximately \$1,000,000. Good catches of furs were reported throughout the north.

Sockeye salmon fishing around Vancouver, B.C., for the first three weeks of the current season, while not as active as last year, has, so far, resulted in fairly good catches. The latest reports indicate a catch to date of 55,000 cases, which is 2,000 cases less than last year.

While the members of Dean Sinclair Laird's party of school teachers from Ontario is returning East from their tour of the country the party of British teachers, who landed in Canada recently, is now travelling through the West on a special Canadian Pacific train to gain knowledge of the country and information concerning its resources.

Construction of the half million dollar storage and power dam on the Muskosh River, authorized at its last session by the Ontario Legislature, has been commenced. The proposed work is designed to control the flow from the Muskoka Lakes basin and will enable the linking up of power development in that district with the Eugenia-Severn system.

What is stated to be the biggest log jam in sixty years recently occurred on the Montreal River in a gorge through which the river flows into Lake Temiskaming. 300,000 logs were piled up to a height of 80 feet with a width of 250 yards, choking the river for 300 yards down at the point where the jam took place. An army of 100 men, working night and day for three days, at last succeeded in breaking the jam with dynamite.

A three-week tour of Canada by teachers and their friends, under the auspices of Dean S. Laird, of Macdonald College, will leave Toronto July 20 on the Canadian Pacific Railway. The party will travel by train to Vancouver and Victoria, and will return by way of Southern British Columbia, across the northern end of the Prairie Provinces and by boat from Fort William east. Stops will be made at all the principal points of interest.

We Owe It To Ourselves and To Our Customers

—to have banking relations only with people of good repute who are honest and prompt in their business obligations.

—to make a fair profit on the service we render to customers so that the bank can grow in strength and usefulness.

—to make loans with the utmost care and upon approved security to the end that the funds of the bank and its depositors will be safely and constructively employed.

It is to the interest of every depositor that we strictly observe these principles without which no bank can be strong and permanently helpful.

BANK OF MONTREAL

Established over 100 years

Total Assets in excess of \$700,000,000

Didsbury Branch: J. C. CLARKE, Manager

AROUND THE TOWN

Mr. and Mrs. E. Cressman returned home on Sunday.

Mr. and Mrs. Fisher spent the week-end in Calgary.

True religion is the kind that takes away your urge to swat the fellow who has another kind.

Gus May of Alsask, Sask., formerly west of Carstairs, arrived on Monday to take up his permanent residence here.

The town of Didsbury is making a much-needed improvement this week in grading the road, at the south end, near the coulee.

Miss Norma Chamberlain, L.A.B., concert pianist and teacher of piano, theory, harmony, will resume her class at the residence of Mrs. Huget on Saturday, Sept. 5th.

Miss Marie Mueller left on Monday for Los Angeles with the intention of spending a week each at Calgary and Lethbridge on the way. She was accompanied by her mother, who will visit with her for a while.

Dr. and Mrs. H. C. Leisner desire to express their appreciation of the parlor table which a number of their Didsbury friends presented them with upon the occasion of their recent marriage.

A party comprising members of the bank staff and others made an auto trip to Banff Saturday last reaching their destination somewhere previous to sunrise the next morning. The return trip was made in time to reach Didsbury the same night, or in the early hours. The party is not quite clear on this point.

The development branch of the Imperial Oil Co. is still hard at work trying to discover a route of oil formation. For the past month they have had a geological survey party, under the direction of G. B. Salmons, out through the McLeod River valley, working north and west from Saunders to Coalspur. Saunders is almost due west of Red Deer and the line of survey is running through the base of the foothills.

O. W. Hembling writes this week from Oyama, B. C., and in part says: "I hope conditions in the Didsbury district are good this year, for while it will soon be nine years since I left, I still have a warm spot in my heart for the old town where I spent eighteen years before coming here. Many changes have taken place since Mr. Crowe started the "Pioneer" on Railway street, near the south end of town.

"Wishing you every success."

VISIT TO THE OILFIELD.

Mr. and Mrs. C. H. Adshead and family have just returned from an auto trip, during which they covered a large slice of Northern Alberta. Leaving Didsbury they drove to Morrin, thence north to Stettler and Dunald, east to Forrestburg and Killam, and doubled back to Hardisty and Rossyth. From there they went to Wainwright, and completed their trip by covering Vermilion and Edmonton.

Their car was a Gray Dort, and during the whole trip it averaged 22 miles and not a bit of trouble to be recorded. At Wainwright they were enabled to make a close inspection of the oil field there, and from one of the producing wells took a sample of the fluid as a memento. This well is pumping up 200 barrels per day of crude oil into a pool, from which the C. N. R. take it for use in their locomotives. Altogether there are five wells that are producing and the oil is obtained at the uniform depth of 2,260 feet. Mr. Adshead states the drilling equipment is the finest he has seen, and with the aid of a rotary a well is completed in about twenty days. At the Fabian well, the property of the Imperial Oil Co., the pressure was so great that it finally blew off a 2,200 lb. valve for which is now substituted one of 3,600 lbs. Even with this, however, it is necessary to release the pressure about every two weeks.

Relative to the crops, our informant states those around Vermilion were poor, but at Manville they were excellent and nearly all harvested. He believes, however, the Clover Bar district to be the best in the province.

Kendrick & Good STOCK BUSINESS
